NURSES VISIT 3158 PATIENTS DURING YEAR

Association Makes Heaviest Calls During Month of February—Clinic Doing Well.

From November of 1919 until this month, the Rock Island Visiting Nurse association made 3,158 calls to sick persons in this city. The heaviest month of the year came in February when the association made 361 regular calls and 14 extra calls. The other months averaged about 260 calls per month.

Within the last year, the association opened its first infant welfare clinic which was established at St. Anthony's hospital on Dec. 12, 1919, with Dr. A. N. Mueller in charge, assisted by Miss Alice Thompson and Mrs. J. M. Cosad. The clinic is held every Friday afternoon from 3 to 5 o'clock. Seventy-seven babies were admitted for the last 12 months, three leaving, two, one dying, and 73 remaining. There were 110 calls made in the interest of the work. Miss Ann Dixon was appointed infant welfare nurse last August succeeding Mrs. Cosad.

Metropolitan calls for the year numbers 398, there being 50 patients, and a metropolitan fee of \$179.50 was collected. Fees collected from the patients amounted to \$247.55, while the incidental expense came to \$52.25. Forty different doctors were called in the year's cases. Hundreds of articles were loaned to the association by Rock Island people and donations of supplies were given by many individuals and organizations in the city.

Why Are Skin Diseases So Difficult to Overcome

It will not be so difficult to rid yourself of skin diseases if you will but realize that these troubles originate in the blood, and if you expect real substantial relief, you must treat them through the blood. The best remedy for this purpose is S. S. S., the fine old blood remedy that purifies the blood of disease germs, and thus restores the skin to a normal and healthy condition. Begin taking S. S. S. today, and write a complete history of your case, and our medical director will give you expert advice without charge. Address Chief Medical Adviser, 320 Swift Laboratory, Atlanta, Ga.
